The Kensington Conservancy is pleased to deliver the JUNIOR EXPLORERS program!

It is an environmental education and outdoor appreciation program designed for children aged 5-10 and their families.

The Junior Explorers start with a membership sign-up that provides each child with a t-shirt, a notebook, and an activity binder. Memberships for the season are \$35.00.

The program began in the summer of 2014 as a way to get the younger generation engaged with the natural environment and all of the beautiful landscapes that the Kensington Conservancy has to offer. It runs from the beginning of July to mid-August on Mondays and Wednesdays.

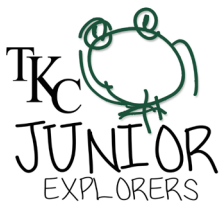

This project was designed to bring multi-generations together for the pure enjoyment of the natural world. It has been proven over and over again that our children are having less and less opportunities to experience the natural outdoors as many of the older generations did.

The Kensington Conservancy has the opportunity to provide valuable education as well as open space.

How the program works:

The Kensington Conservancy has designed this program to encourage children to find as many opportunities to gain knowledge and be awarded for it.

Each section of this project is designed around a topic with suggested activities to assist with learning. Some of the sections have been designed as independent studies while other sections have been designed as specific outings with the Kensington Conservancy.

TKC Junior Explorers - \$35.00 x _____

Junior Explorers Name(s): _____
